About me

My name is Jonathan Svantesson and I was born in Gothenburg, Sweden. I am 24 years old and currently a third-year student at Chalmers University of Technology. One of my biggest interests in life has always been sports. Everything from surfing in Portugal to skiing in the French Alps, but especially football, which I have been playing for as long as I can remember. When I am not playing sports, I love to travel. I have been to a lot of places in my life, which has made me constantly strive for adventure, discovering new places and opportunities, meeting new people, and trying new things.
